

South Bryan County Recreation Weather Policy

Safety of the Players, spectators and staff is our main concern. No weather event is more dangerous than lightning.

Thorguard Lightning Prediction System

- One loud horn blast & Strobe Lights.
- **Seek shelter immediately**- inside bldg. or vehicle
 - **DO NOT** stand on, or near fields or in parking lot.
- When this occurs, a strobe light located with the horns will activate and remain active while under a weather alert.

We do not have a system which allows us to know how long the fields will be closed. A staff member or coach assigned to the fields will determine if players should remain and wait out the storm or leave the park.

Rained Out

- * Is practice cancelled?
- * Get a text message or email!
